

Thanks for choosing Perfect Computing Solutions' Chef's Dream 2023. This program is designed to help archive and store all those favorite recipes and make it quick to organize them all. Please take some and view the Tip & Tricks area of the program. They are accessible from the About Form. Unregistered versions have limited functionality so please spend the \$9.99 and get the full version so you can enjoy the program as it was meant to be.

The website is currently undergoing renovations but feel free to stop by www.easypcs.us for more information or to reach out for information.

Thanks again!
